## President's Address .....

Let me express my sincere gratitude and happiness to all members for giving me an opportunity to represent the branch at all levels.

We had paid a good tribute to Dr. Mohandas S by naming the branch hall in his name on 28.08.2017, followed by releasing of the Souvenir on him.

Today, IMA is facing lots of issues at State and National level like the Clinical Establishment Bill, National level registration numbers for Doctors and repeated attacks on doctors and hospitals. Hence, it is time to be vigilant for the doctors' community. Thousands of doctors are passing out year by year. I request each member to enroll one new member into our branch. I appreciate and congratulate Dr. Sreekumar & team for the good works done at our IMA branch. I request all of you to support my team for the coming one year and the tasks we undertake.

JAI IMA,

Dr. BIJU NELSON

## *Secretary's Desk.....*

Respected seniors and dear friends,

It takes immense pleasure for me to take over as secretary of Main IMA Kollam at a time when IMA is growing into a movement from an organization. Increasing awareness and expectations about IMA amongst the members as well as the society are very striking and motivating.

IMA has always been working in the best interest of its members as well as of the community as a whole. Our members should be able to work in an atmosphere which is free of any fear and stress and this is our topmost priority in the current times.

While we will rush in to help any of our member who is in crisis situation, we also plan to work on the things that will help prevent occurrences of such events and maintain healthy doctor-patient relationship.

Key areas where we need to concentrate more include:

- \* Communication amongst members.
- \* Communication between doctors and patients / relatives.
- \* Communication between doctors and various organizations in the society.

More CME programs on ethical practices, medico legal aspects and on doctor-patient communication aspects should be planned to give more awareness among our young members

' Digital IMA : News Letters, Accounts and other paper prints need to be slowly shifted to digital platform to reduce paper wastage and printing/postage cost. It will be a more easy and convenient way of communication among our members in this digital era.

There are many MBBS and Post graduate doctors who are not members of IMA. Through our Membership Drive we want to register or renew membership of all of them and make them more active in IMA activities, since we all need to stay together and strengthen our unity.

Looking forward to achieve all these goals with the cooperation of all IMA family.

Jai IMA.

*Dr. ANISH MADHAVAN R.*
